

Excerpt from Eighty-Fourth Report of the Municipal Government of the City of Nashua, N. H: For the Financial Year 1936  
Mr. President and Members of the Board of Aldermen: It has been a custom for a great many years for the Mayor to review the events of the preceding year on the first day of each January, and, in some measure, to set forth the intention of the City Government for the succeeding year. I sometimes wonder whether the so-called mid-term address serves any useful purpose or whether such addresses should be confined to inauguration day. It is my intention, however, to observe custom and to briefly outline last years work and suggest what will be the policy during this year of 1937. During the past year, we have continued the policy of closely cooperating with the Federal Government as we did in the years 1934 and 1935. In the main, this cooperation has resulted in continued employment of one sort or another for those from our City who, because of economic conditions, were unable to find employment in private industry. For the most part, projects sponsored by the City to which the Federal Government liberally contributed have provided nearly steady employment at very moderate wages to all of our employables. The balance have been taken care of on the direct relief basis, with the State of New Hampshire contributing one-half of the cost. I think at this point it would be interesting for you to know the many types of projects which we have had in Nashua, commonly called work relief: city streets, city sewers, municipal airport, flood work, farm roads, sidewalks, Artillery Pond athletic development, renovation of buildings, water reservoirs, tree project, assistance in snow removal, sewing projects, visiting service, cemetery work, municipal parks, State armory, transient camp, historical project, register of deeds, skating facilities and other playground facilities. These projects were all in addition to the regular city work, and not only provided work for our unemployed men and women, but made it possible for us to do a total amount of work in a three-year period which, under ordinary circumstances probably could not have been done in from twelve to fifteen years. The work done has been important, permanent and useful. We are happy to know that during this period private industry has absorbed nearly two-thirds of those unemployed three years ago today, and that our problem for the future will, as a consequence, be much easier to solve. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
