If you want to write more compelling stories and books . . . If you want to write faster and with less effort . . . If you want to sell more of your work . . . Then this is the book you've been looking for. Write Well, Write Quickly, Write for Money starts by teaching you how to write skillfully, because every honorable writer wants to write to the best of his or her ability. I'll show you how to write clearly, accurately, and yet concisely. I'll also show you how to conduct your research and interviews, how to write ethically, and much more. Although the importance of writing well can't be overstressed, it's also true you won't make a lot of money unless you maximize your output. So I'll teach you numerous ways to write quickly. I'll introduce you to a unique and innovative system called Approaches. This system will revolutionize your writing and make the task of writing faster and less demanding than you ever thought possible. I'll also tell you about potential markets for your work by showing you how to write for newspapers, magazines, and web sites. In addition, I'll show you how to write a book, and equally important, how to publish that book. Finally, I'll show you how to promote your work, online and offline, to maximize your sales. About the author Joe Wisinski has been writing for a living for more than 20 years. He's worked at newspapers, radio stations, and a 24-hour television news station. Wisinski says if there's anything he enjoys more than writing, it's teaching others how to write, and he has taught writing both at corporations and as an adjunct professor. Wisinski holds a master's degree in mass communications.
